Applicants' response received 9 November 2005 has been made of record.

Claims 5-19 are pending.

Claims 5-14, 16 and 19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kawabuchi et al in view of Richter et al and Satoh.

Claims 15, 17 and 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kawabuchi et al in view of Richter et al, Ohashi et al and Satoh.

Each of these rejections is maintained for reasons of record. Applicants' arguments in traverse appear to focus on the teachings of Richter et al regarding the use of amine catalysts. It is the position of the examiner, however, that the primary reference supplies a fair teaching of the use of these catalysts in reactions such as claimed instantly.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
